SKIRMISHING IN CUBA

Several Engagements Have Taken Place.

ONE BATTLE LASTED TWO HOURS

Only Twelve People Killed During This Engagement, Eleven of Them Being Insurgents, According to Spanish Reports. Gomez Defeats the Spaniards—Campos Asks For More Troops.

HAVANA, Jan. 16.—The opening of the winter in Matanzas has brought intelligence of a hot engagement at Las Charcas, near the mountains of Santa Maria, in that province. The column of Spanish troops was led by Captain Martin Sanchez, and the number of his troops is placed by official report at 240. The insurgents engaged were under the Cuban leaders Loret, Clotilde, Garcia, Perez and Inglesito, and the official report places their number at 1,200.

The battle, it is said, raged fiercely for two hours, the insurgents pursuing their usual elusive and harassing tactics. They gave back before the Spaniards, who finally took their camp and found there 11 dead insurgents and five wounded. They claim that the insurgents also carried away 61 wounded. The Spanish losses, according to the report given out were: One volunteer killed, five soldiers wounded and 10 missing. The subsequent movements of the opposing forces are not reported.

General Linares reports that his column overtook Gomez Tuesday at the head of 3,000 insurgents moving from Vereda Nueva in the direction of Hato Ariguanabo, near the border of Pinar del Rio. The insurgents made a stand and engaged Brigadier General Cornel, who led Vildes' vanguard. It seems that after an hour's hard fighting, the main Spanish column coming up, the Cubans retreated and their position was taken. The hot fire which they had been pouring into the Spanish ranks was stopped by the artillery of the Grenada regiment.

When the Cubans were dislodged their retreat is said to have been precipitate and nine dead were left upon the field, and five wounded, while numerous wounded were carried away. The troops lost one officer and 15 privates wounded. What direction the insurgents took is not stated, but their movements after the attack on Bejuical seemed to indicate a purpose to return to the province of Pinar del Rio.

Another report of an encounter with Maximino Gomez at a point near Sabana has also been received. This time it was General Pratt who reports that he has had an engagement with Maximino Gomez, and that he has also put the Cuban forces to flight. No details of the engagement are given, nor is anything stated as to the amount of losses inflicted, but it is said that Gomez is proceeding westward and that he goes to relieve Maceo and to reinforce him.

The Spanish authorities claim that they have pressed Gomez hard for two days and that they have succeeded in doing what they sought in driving him back into the heart of Pinar del Rio province. They say that the combined forces of Gomez and Maceo are now in a seriously compromised position and they do not fail to disseminate the impression of their confidence that they have at last got the insurgents at a disadvantage and will be able to prevent their escape from Pinar del Rio.

The Spanish generals hope to be able to crush these two insurgent commanders before the second insurgent army, now moving westward through the province of Santa Clara, can effect a junction with the insurgent forces in this vicinity. When last heard from the second insurgent army, under Generals Jose Maceo, Rabi and others, was believed to be pushing on through the Sagua La Grande district of Santa Clara toward the border of Matanzas. Efforts are to be made to check its progress at or about Colon. The eastern army of the insurgents is said to be carrying with it stores of arms and ammunition for the equipment of recruits that Gomez and Maceo were compelled to leave behind, owing to the lack of arms.

It is reported that while Maceo was moving along the northern coast of Pinar del Rio he received considerable additions to his supply of arms and ammunition. A schooner loaded with arms, etc., is said to have awaited the insurgents at La Mulata, and other such consignments are said to have been received at various parts of the coast. This is denied by the Spanish authorities, however, who say that the coast is thoroughly patrolled by the vessels of the Spanish navy.

The damage done by the insurgents in the province of Pinar del Rio is described as enormous. They are said to have destroyed all the railroad bridges and all the culverts on the line of railroad running from this city, through Guira Molena, Artemisa, Candelaria, San Cristobal, Paso Real and Concolacion to the city of Pinar del Rio, in addition to sinking a number of towns, burning plantations, plundering houses and doing other damage north and south of the railroad line.

At Guantánamo, south of Colon, the insurgents have burned the plantation of La Vega and other cafefields, and they have caused enormous loss by similar tactics.

While passing through the Mata Sagua district the insurgents burned two plantations at Manicoragua, province of Santa Clara. The insurgents have burned the large store and tobacco ware-

house, containing 500 bales of tobacco, belonging to the Ortiz company.

The distress in the province of Matanzas and other places devastated by the insurgents is very great and the local authorities in various districts have been granted the necessary permission to collect funds by public subscription for the relief of the sufferers. In addition, all the soldiers and all the employees of the different branches of the government have agreed to give one day's pay, each month, toward the funds being collected to relieve the distress referred to.

CLARA BARTON SPEAKS.

The Red Cross Society Will Not Thwart Turkey's Wishes.

PHILADELPHIA, Jan. 16.—The Press prints a letter from Clara Barton on the Armenian question. She states that the first appeal for the Red Cross to act came from the missionary boards of Constantinople.

To this two conditions were made, that the request come from the people of the entire country, and that sufficient money should be realized. The first was complied with and the national committee guaranteed sufficient funds. The international committee of Geneva, official head of all the Red Cross treaty nations, having no objection, preparations for sailing were made. The American Red Cross had no part in raising the money, its only mission being to distribute. Then came the objection from the Turkish government. Miss Barton declares that that government is not antagonistic to the Red Cross as such, but objects to the distribution of foreign relief on entirely different grounds, neither in its power nor that of the society to control. She says that any statement that the Red Cross is aggressive and intends to act in spite of the prohibition is entirely incorrect and unfounded.

There was added interest in the speech from the fact that Mr. Mills has been prominent in the senate as a champion of the president's policy. His criticisms yesterday were temperate and dignified, the senator giving expression to his high personal regard to the executive, although differing from him radically on the question of financial policy.

Mr. Peffer followed with a speech against bonds and in favor of silver coinage.

LONDON, Jan. 16.—Mr. Wiltze of California, a friend of John Hays Hammond, the American mining engineer, who was arrested with others at Johannesburg on the charge of high treason, continues his efforts in behalf of Mr. Hammond and to the other Americans in custody at Johannesburg or Pretoria. Discussing the situation, Mr. Wiltze said:

"Our government must understand this fact, that all the demands of diplomatic courtesy were satisfied by Mr. Chamberlain's kind response to Secretary Olney's request that Great Britain protect the interests of the Americans in the Transvaal."

"But nothing could be worse for the Americans, as the feeling against all Englishmen is exceedingly bitter, while the Boers are very friendly to Americans. Indeed, several of those arrested are on the best terms with the Boer government."

"None of the Americans were connected with the political movement. They simply joined the reform committee, which was formed in the emergency to preserve the peace of Johannesburg."

"President Kruger arrested all the members of the committee, but I believe that prompt action taken by our representatives at Cape Town would secure the release of the Americans. Any delay may endanger their lives, as the Boers are intensely exasperated."

"We should have a representative in the Transvaal, for the Americans, though few, occupy the most important positions, and trade with the United States is very large. Most of the lumber used in the mines comes from Puget sound."

Four Omaha banks have bid for half a million dollars of Uncle Sam's new bonds. They evidently don't regard the popular loan plan as a "sham."

The Legislature of Kentucky will be called upon soon to elect a U. S. Senator to succeed Hon. Jo. C. S. Blackburn. Every county in the State is entitled to a vote in the matter, but the Republicans who control the House have by their dilatory and despicable tactics said to the people of Nelson County, "You shall not have any voice in this election. If we had promptly ordered the special election to fill the vacancy in the office of Representative from Nelson, that might have lessened Dr. Hunter's chances to succeed Mr. Blackburn; ergo, we have fixed the special election for February 1st. We are running the Legislature now in the interest of Dr. Hunter." Such is Republicanism.

River News.

The rapidly receding river above Pomeroy has caused nearly all boats to retire to the bank. Thousands of dollars invested in packets is now lying idle and it is estimated that fully five thousand men are consequently out of employment. With a good stage at Pittsburgh and points down the river, it is said that in addition to this army of unemployed, about another five thousand would be given employment in the mines. Labor is always in great demand when a good rise sets in.

The lighthouse boat, Golden Rod, is ice bound at Middleport, just below Pomeroy. The Golden Rod has had a great deal of trouble this season. It is thought that the boat is unfit for the service, and the probabilities are that an appropriation will be asked for in order to replace it with a new boat.

The residence of Mr. and Mrs. J. D. Muse, corner of Fourth and Sutton, was the scene of a leap year party last evening, given by Miss Sophia Williams in honor of her guest, Miss Sallie Mae Muse of Mt. Carmel. About a dozen couples were present, and all had a delightful time.

The funeral of the late Robert A. Cochran Wednesday afternoon was largely attended. Something over one hundred members of the two lodges of Oddfellows turned out to pay a last tribute to their deceased brother, and members were also present from lodges at other points. On arriving at the home the members of the order were given an opportunity to view the remains, after which the religious services were conducted by Dr. Hays. Mr. Byron Rudy, G. C. P. of Kentucky, and Chaplain M. F. Marsh, of DeKalb Lodge, officiated in the services at the grave.

The Shop Has Brains.

The tendency of successful business is to enlargement, and with enlargement come a new multitude of agents, a new variety of markets, a new kind of competitive danger, to avert which absolutely requires mind. The very number of his employees compels the great tradesman of our day to become a judge of character; the very expansion of his market drives him to study many countries, many tariffs, many laws, and his extreme danger from competition makes of him an artist, a chemist and a critic. The process is slow, because he is always governed by the idea of selling, and he often learns rather to know public taste than to know what taste is and to seek in his purchases the popular rather than the good, but still the process must develop his mind.—London Spectator.

Value of Celery Root.

The root of the celery plant is not as widely appreciated as it should be. An authority cited by the Boston Journal says of it:

"The root of celery has been sadly deposed, outrageously misunderstood. It, too, is at the service of man during greenest months, when, so feeble is his imagination, he seldom soars above sprouts. It may be boiled, and then white sauce well becomes it; it may be fried in close embracing bread crumbs; it may be fashioned into a purée; it may be stewed. Why let it linger longer, the wallflower of the green grocer's stall? Celery, in root and bunch, soothes—a rival to opium. Eat it for which of its many excellences you will, only see that you eat it."

It Wasn't a General's Egg.

An amusing anecdote is given in the Madras Mail about Calcutta life of a bygone generation. It relates to Lord Wellesley (Duke of Wellington) and is as follows: The great man had been given a bad egg for breakfast, and sniffing at it he called to his valet: "Lamell, a bad egg! What an atrocious thing to have given me!" The valet hurried up with a serious face, examined the egg closely and then exclaimed: "I entreat your forgiveness, my lord. The stupid servant has given you your lordship in mistake an old-de-camp's egg."

POINTS OF LAW.

Parol evidence is not admissible to vary the terms of a note.

The giving of an absolute deed merely as security is a badge of fraud as against the creditors of the grantor.

A corporation that is unable to pay its debts as they become due in the usual course of business is insolvent.

Where the contract of a carrier for a special rate of freight is void in violation of the interstate commerce act the carrier may collect the usual rate.

An employee who knowingly engages in dangerous work because he is told that he will lose his place if he refuses to do so assumes the risk of injury from such work.

The assignee of an insolvent corporation, under an assignment for the benefit of its creditors, takes the property subject to whatever equities existed against the corporation.—Recent Decisions of Highest Courts.

GAME TWO CAN PLAY.

Democratic Senators Warn the Republicans That They Must Go Slow.

Wednesday's session of the State Senate was a lively one. The Democrats served notice on the Republicans that unseating members of the Legislature was a game two could play.

The wrangle arose over the motion of Mr. Goebel to postpone consideration of a resolution calling for a joint session to elect a Librarian January 23rd. Mr. Goebel wanted to postpone consideration until February 2nd. The President ruled the motion out of order. The majority carried an appeal from the decision of the chair. Mr. Bronston made a speech full of fire, saying if the House majority unseated Democrats the Senate majority would meet the Republicans with the same methods.

Mr. DeBoe, by consent, asked Goebel "What is the object of your motion to postpone the consideration of a resolution until a day after the date prescribed by law to elect a Librarian?" Mr. Goebel replied with much feeling, "I will be honest with the gentleman. We do not intend that a Librarian or United States Senator shall crawl into office through the grave of Isaac Wilson."

Several bills were introduced in the Senate, one providing a heavy penalty for pool selling and bookmaking, and one providing strict regulations for conducting street car systems. Mr. Ellison introduced one to provide for free turnpikes and gravel roads and Mr. Bennett, one providing for property rights of married women.

The Governor sent in the appointment of Dr. Scott and Mr. Cardwell to be Superintendent and Steward respectively of the Lexington asylum, and Dr. Letcher to be Superintendent of the Western asylum and J. W. Postell to be Steward of the same. Postell is the colored man whom the Chairman of the Republican County Committee of Christian County declined to indorse.

In the House Barnett, of Ohio, offered a resolution expressing the sympathy of the State with Cuban patriots, and instructing the Kentucky delegation in Congress to do all in their power to secure recognition of the patriots by this Government.

Carroll (Dem.) of Louisville, set partisan politics boiling by offering a resolution calling attention to the uncertainty as to the financial and other political views held by Dr. Hunter, the Republican nominee for Senator, and closed by inviting Dr. Hunter to air his views on these important questions on the floor of the House. Lyons (Rep.) of Newport, came forward with his usual motion to table, and this was carried by a straight party vote.

Miss Emma Guy, of Bowling Green, was nominated by the joint Democratic caucus for State Librarian. She has been promised the support of the two Populist members. Mrs. Day withdrew in the interest of Miss Guy.

About half a dozen bills providing for free turnpikes have already been introduced.

A bill is pending to abolish the office of Assessor.

Among the bills introduced is one to prescribe the duties of Commonwealth's Attorneys and to provide payment for same.

Mr. Hiles has introduced a bill providing pay for the arrest of a murderer in Bracken County.

Speaker Blanford, in obedience to the power controlling him, has at last issued his writ for a special election in Nelson County, to be held February 1. By that time the Republicans hope that they will have elected a United States Senator.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

JOHN JENKINS pleaded guilty to a charge of drunk and disorderly in the Police Court and was fined \$3 and costs.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The Golden Medical Discovery has been used with unvarying success for over thirty years.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

THE COMBS-SWIGERT FAILURE.

It is Worse Than First Reported—Cincinnati Concerns Caught For Big Sums.

The schedule of liabilities and assets in the big triple failure of Leslie Combs, Daniel and Robert A. Swigert, whose assignment at Lexington was announced several weeks ago, shows that the failure of Combs was much more disastrous than at first announced. His liabilities amount to \$252,875, while his assets are only \$113,071.

Among his heaviest creditors are the Cincinnati Leaf Tobacco Warehouse Company, which gets caught for \$42,000, and the Farmers' and Shippers' Warehouse, of Cincinnati, which holds \$24,000 worth of his paper. Lexington banks hold \$119,000 worth of his notes, while his father-in-law, Daniel Swigert, gets caught for \$42,000.

The assets include 914 acres of blue-grass land, 600,000 pounds of tobacco, \$22,500 par value of bonds and stocks in the Belt Electric Line, Hercules Ice Company and Electric Light Company, besides horses, implements, wagons and other farm utensils.

Daniel Swigert's liabilities are \$67,962. His assets are \$68,358. This is better than was at first supposed, as it was thought the elder Swigert could not pay over seventy cents on the dollar.

Robert A. Swigert's liabilities are \$15,886 and his assets only \$700.

Death of Mrs. A. T. Shotwell.

Mrs. M. C. Chisholm received a telegram yesterday afternoon from Glasgow Junction, Ky., announcing the death, at 12 o'clock, of her sister, Mrs. A. T. Shotwell, of hemorrhage. She was formerly Miss Ann Courtney, of this city, being a sister of Professor P. D. Courtney.

Deceased was sixty-two years of age and had many relatives and friends in this city and county. She leaves two daughters and one son. The latter has not been heard from for fifteen years.

DURING one of Morgan's raids through Kentucky a number of refugees took possession of a cellar under a house in a cornfield. They were greatly alarmed for the reputation of Morgan's men was very bad for the truly loyal. Among the refugees was an infant, and like most infants this one raised its piping voice and cried aloud. One of the men whispered loud enough to be heard by the mother "to choke that d-d baby." Of course the mother objected, when the same gruff voice whispered back: "Isn't it a great deal better for the dear little innocent to be sent straight to heaven than for the rest of us to go straight to hell?" The baby was saved and likewise the balance of the refugees.—Lexington Gazette.

GOOD FOR EVERYBODY

and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the Liver active. You must help the Liver a bit, and the best helper is the Old Friend, SIMMONS LIVER REGULATOR, the RED Z. Mr. C. Himrod, of Lancaster, Ohio, says: "SIMMONS LIVER REGULATOR broke a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need, and recommend it."

Be sure that you get it. Always look for the RED Z on the package. And don't forget the word REGULATOR. It is SIMMONS LIVER REGULATOR, and there is only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE REMEDY. Take it also for Biliousness and Sick Headache; both are caused by a sluggish Liver.

ALLISON A CANDIDATE.
Iowa Republicans Will Present His Name
to the Presidential Convention.

DES MOINES, Jan. 16.—The Republican joint legislative caucus met yesterday afternoon. Representative Allison was made chairman, and Senator Ellis nominated W. B. Allison for United States senator. Each speaker referred to Mr. Allison's fine record, and paid special attention to the fact that he is a very available candidate for the presidency. Every allusion to Allison for president was greeted with great applause by the members, and visitors crowding the lobby and galleries.

At the conclusion of the speeches Allison received the unanimous rising vote of the caucus for the nomination, and was declared the nominee. In a few minutes Senator Allison appeared on the arm of Speaker Byers. His reception the moment the door opened was an ovation. Every member of the caucus rose in his place and the hall resounded with cheers. The applause continued until long after Mr. Allison reached the speaker's desk. Chairman Allen then said:

"Gentlemen of the caucus, I take pleasure in presenting to you Hon. William B. Allison, our next president."

Another storm of applause broke loose and was long continued. When quiet was restored Senator Allison made a brief speech of thanks, in which he did not touch on national issues.

Congressional Delegates Take Action.

WASHINGTON, Jan. 16.—If any doubt had existed of the candidacy of Senator Allison for the Republican nomination for president, it was dispelled yesterday by the action of the Iowa congressional delegation. With the sanction of Senator Allison himself the delegation held a conference attended by every member in the city, and discussed plans for advancing the senator's presidential interests. A committee of three—General D. B. Henderson, chairman; Senator Fear and Representative Hepburn—was selected to represent the Allison interests in Washington.

MONROE ON A BUTTON.
A New Little Hatch Sent to Venezuela to Be Sold There.

NEW YORK, Jan. 16.—By the steamer Venezuela, which sailed from this port yesterday for La Guayra, there was a consignment of goods to Venezuela of several thousands of buttons similar to the ordinary campaign badges, with a small satin American flag attached. On the top of the button is a picture of ex-President Monroe and the words, "America for Americans; One Country, One Flag, One God." The buttons were sent by N. Bolet, ex-secretary of the Venezuelan legation at Washington, who in speaking of the matter said:

"By the last mail from Venezuela I received a letter from a friend in Caracas saying that the people there were simply wild with enthusiasm, and would buy anything which contained a

suggestion of American sentiment. He requested me to send him something to sell, and declared that he could dispose of 1,000,000 pictures of Cleveland and Monroe. I decided upon the President Monroe buttons as the most appropriate and convenient souvenirs, and sent the batch for a starter. I have ordered 50,000 more to ship by the next steamer. They will sell for 25 cents a piece."

FORAKER FORMALLY ELECTED.
He Thinks the Legislature and Announces His Policy.

COLUMBUS, O., Jan. 16.—The two houses of the legislature yesterday in joint session confirmed their respective acts of Tuesday in electing J. B. Foraker United States senator, his term to begin March 4, 1897. The senator-elect, in waiting at Governor Bushnell's office, being escorted to the hall of the house, was received with great applause, and addressed the general assembly briefly. He said he had come to answer the call, accept the honor and to make the promise that he would do all within his power to fulfill the duties of the position.

He said he believed in protection, reciprocity and advancement of commercial business in American bottoms, under the American flag. He believed in the Nicaragua canal and that it ought to be built at once. He believed in bimetallism. The demonstration of silver was the greatest mistake ever made by the world. He would, however, have one dollar as good as another.

Governor McKinley followed with one of his most eloquent addresses, rehearsing Foraker's history.

Governor Bushnell also spoke.

Foraker's Failure.

Commander Bullington Booth Recalled.

NEW YORK, Jan. 16.—General Booth of the Salvation Army has ordered Commander Bullington Booth to give up command of the American army and go to London. Why he has so ordered is a mystery. Commander Booth says he has no idea why this recall is made, nor of where he will go or what he will do. Mrs. Booth and the babies will go with him as will several members of his personal staff, including Brigadier Perry.

Echoes of the French-Eversole feud.
JACKSON, Ky., Jan. 16.—Fulton French of French-Eversole feud fame, has been sued in the Perry circuit court at Hazard for \$10,000 damages by the widow of Judge Josiah Combs, charging French with being accessory to the murder of Judge Combs, but recovery can not be had on account of the statute of limitation.

Still in a Deadlock.
